WORK EXPERIENCE

Atlas Lane - Washington, DC **Contract Software Developer** 2017-2018
Technology-Based Property Management Firm. Worked 20 hr/wk concurrently as a full-time GW engineering student, I functioned as a software developer for the marketing department completing projects bid by corporate clients. Work is performed using JavaScript, HTML5, and CSS3, powered by ReactJS. Transitioned from hourly employee up to contract-based role by two months.

Bizzzoom Business Marketing – Sarasota, FL **Software Intern** 2017
Internship with Bizzzoom, Inc - an international company launching multiple franchise brands. It has holdings in a physical therapy company that needed an application for understanding how to assess people's balance more effectively. I updated the interface with PHP and JavaScript to make it more user-friendly.

Triax Precision Manufacturing – Sarasota, FL 2016-2017
Front Desk, Metal and Laser working
Aerospace Engineering Facility that designs and produces specialized instrumentation. Responsibilities included cleaning instruments; preparing metal products for packaging; processing work orders. Skills utilized ranged from welding and pre-blank metal preparation to front office administration.

FYZICAL Health – Sarasota, FL, **Front Desk, Data Entry** 2015-2016
Front office reception for a physical therapy and otolaryngology clinic. Responsibilities included patient data entry, telephone answering, and patient checkout.
